

Resources

All Hope UK's voluntary Drug Educators receive a starter pack full of games and activities to use in drug awareness sessions and detached work with different age groups. Hope UK encourages interactive learning with all groups, and a lot of educational resources are produced at head office and sent to Educators.

Annual Conference

Each year, Hope UK's staff, trustees and volunteers get together to learn from each other and update their training. The cost is £120 per person, and some would be unable to attend unless Hope UK offered free places to active volunteers.

Sessions and detached work

Hope UK covers travel expenses for educators travelling to and from speaking engagements. We also provide banners and educational material to use at detached work activities.

Income

Hope UK receives most of its income from grant-making trusts and donations from individuals and voluntary organisations. Our investments also provides necessary funds to cover our monthly costs.

Hope UK

How your money helps

Generation Hope

A movement led by young people for young people, encouraging and supporting each other in Christian, counter-cultural life styles. During 2015 and 2016, more young people got involved in carrying out detached drug education around the UK. A Youth Development Worker has been employed to nurture and support this important area.

Staff costs

At Hope UK's offices in London and Kettering, staff deal with finance and admin, as well as prepare training for volunteers, develop Generation Hope and support volunteers.

We always work to minimise our admin costs in the offices.

Training weekends

All new voluntary Drug Educators attend 3 Basic training weekends. These events are residential. Volunteers give their time and all expenses are reimbursed.

Members of staff usually prepare and provide the meals for the new volunteers.
