

Throw me a name

Type of exercise:	<u>Introduction</u>	<u>Drug Information</u>	Related Information
	Attitudes	Skill Development	
Approximated time:	Varies		
Age range:	14+		
Equipment:	A ball/beanbag		
Learning outcome:	To see what names of drugs the group has heard of.		
Tips/information:			

Description of exercise:

Throw a ball/beanbag to someone in the group. As they throw it back to you, they mention a name of a drug. It may be a slang name, a medical name or a type of drug. (Optional: If they say a slang name you say the correct name as you get the ball back (if you don't know - miss this bit out!)).

If someone can not think of a name, they just throw it back to you and you throw it to someone else.

If the group is 'controllable', you can let them throw the ball amongst each other. Make sure everyone is included.

You might also want to have someone write up the names as they are called out, linking the exercise to 'Names of Drugs and Categories'.
